FameLab international final 2025

Pitch competition in English

Free of charge

Registration recommended

**Vote for the
best science
communicator!**

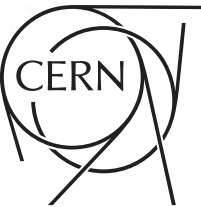

FameLab is a global stage for the next generation of science communicators. Finalists will deliver powerful 3-minute talks—no slides, just science, passion, and charisma. This year's international final takes place live at CERN, where national winners of 10 countries compete for the title of best young science communicator.
